PROFESSIONAL SUMMARY

Results-driven Flutter Developer with 3+ years of hands-on experience designing, developing, and deploying high-performance mobile applications for Android and iOS platforms. Proven expertise in building scalable, data-driven solutions using Flutter, Dart, and backend technologies including PHP and Firebase. Demonstrated ability to integrate third-party APIs, optimize application performance, and implement responsive UI/UX designs. Adept at collaborating with cross-functional teams in Agile environments to deliver projects that enhance user engagement and drive business growth. Passionate about leveraging emerging technologies to solve complex technical challenges and contribute to organizational success.

CORE COMPETENCIES

Mobile Development:

- Flutter & Dart (Primary Expertise)
- Cross-Platform Development (iOS/Android)
- Flutter Version Control (FVC)
- Mobile Sensor Integration
- Performance Optimization & Debugging

Technical Proficiencies:

- Programming: Dart, C, Java
- Frontend: Flutter Framework
- Backend & APIs: Firebase, RESTful APIs, Third-Party Integration
- Tools: Git, GitHub
- Methodologies: Agile Development, CI/CD

Additional Skills: Google Map Integration, Push Notifications, Payment Gateway Integration, State Management (GetX), Responsive Design, Data Structures & Algorithms, Version Control & Workflow Management

PROFESSIONAL EXPERIENCE

Misha Infotech Pvt Ltd | Flutter Developer *Feb 2025 – Mar 2026*

- Currently developing enterprise-grade mobile applications using Flutter framework, focusing on scalable architecture and optimal performance
- Collaborating with product managers and designers to translate business requirements into technical specifications and functional mobile solutions
- Implementing best practices in code quality, testing, and deployment processes to ensure robust application delivery

Rafts and Rivers LLC | Flutter Developer *Apr 2022 – Jan 2025*

- Developed and maintained multiple production-ready Flutter applications, serving thousands of active users across Android and iOS platforms
- Architected and implemented complex features including real-time API integrations, payment gateway functionality, and interactive UI components using GetX for efficient state management
- Optimized application performance by identifying bottlenecks and implementing caching strategies, resulting in enhanced user experience and reduced load times
- Integrated third-party services including Google Maps API for location-based features and Firebase for backend authentication and push notifications
- Collaborated with cross-functional teams in Agile sprints to deliver projects on schedule while maintaining code quality standards

Madhesiya Software Pvt Ltd | Flutter Developer Intern *Oct 2021 – Mar 2022*

- Completed 6-month intensive internship program focused on Flutter mobile application development and software engineering best practices
- Contributed to the development of client-facing mobile applications, participating in the full software development lifecycle from requirement analysis to deployment
- Gained hands-on experience with Dart programming, Flutter widgets, API integration, and responsive design principles
- Worked collaboratively with senior developers to resolve technical challenges and implement feature enhancements

KEY PROJECTS & ACHIEVEMENTS

Crux Flutter Play Store | *Flutter, Dart, GetX, Firebase*

- Engineered a comprehensive start-up platform integrating project management, team communication, and analytics tools to streamline workflow efficiency and enhance team collaboration
- Implemented GetX state management for seamless user experience and optimized application performance
- Integrated third-party APIs to enable real-time product data retrieval and performance optimization features

Kabia Travels | *Flutter, Play Store*

- Developed an intelligent travel planning application featuring personalized itineraries, local recommendations, and seamless booking integration to deliver enriching travel experiences
- Designed and implemented interactive UI using Flutter framework with PHP backend for robust data processing
- Integrated payment gateway functionality to facilitate hassle-free transactions and enhance user convenience

India Ka Apna Store | *Flutter*

- Built a feature-rich e-commerce application enabling users to purchase products online and communicate directly with vendors in real-time
- Implemented user registration, profile management, and profile creation systems for enhanced customer engagement

- Designed responsive application interface optimized for various device sizes and screen resolutions

Cash Panther & Cash Leo | *Flutter, Play Store*

- Created engaging gamification applications offering rewarding experiences through task completion, gaming, and daily leaderboard participation
- Developed reward accumulation system with in-app purchase functionality to drive user retention and monetization
- Implemented variety of interactive activities and responsive interfaces compatible across multiple device types

Cruxx News | *Flutter, Play Store*

- Delivered a concise news aggregation platform providing real-time updates on stocks, markets, cryptocurrencies, and global events in user-friendly format
- Integrated market trend analysis and investment insights features powered by data-driven algorithms
- Designed responsive application architecture ensuring seamless performance across various device configurations

EDUCATION

Master of Computer Application (MCA) *July 2022 – July 2024*

Galgotias University, Greater Noida | Percentage: 83%

Bachelor of Computer Application (BCA) *July 2019 – July 2022*

Integral University, Lucknow | Percentage: 86.15%

Intermediate (Class 12) *July 2018 – July 2019*

Lucknow Public School, Madhoganj | Percentage: 78.40%

High School (Class 10) *July 2016 – July 2017*

Lucknow Public School, Madhoganj | Percentage: 87.83%

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

✓ **Problem-Solving Excellence:** Solved 50+ Java and front-end development tasks/questions across multiple coding platforms

✓ **Data Structures & Algorithms Proficiency:** Practiced daily DSA challenges and solved 70+ questions on GeeksforGeeks, LeetCode, and HackerRank
